

**BRITISH MODEL FLYING ASSOCIATION
EAST ANGLIA AREA
ANNUAL GENERAL MEETING 2020
COMP SEC'S REPORT**

Sadly, I must report what has been, almost certainly, the least onerous season for a free-flight comp sec in the history of the East Anglian Area.

Pre Covid 19 lock-down, the two scheduled Area Events at Sculthorpe were blighted by strong winds and rain such that only one individual was sufficiently brave/foolish to put models in the air.

In mid-summer we were able to host two purely trimming events in lieu of actual contests. These attracted a respectable attendance including sports flyers and, on one day, the model rocketry fraternity - all present seemingly enjoying the opportunity to get out and fly and (distantly) socialise.

That unfortunately was 'it' for now and for the foreseeable future.
