

Request to BMFA East Anglia for partial 80th Anniversary funding

IVCMAC was founded by Ray Malmstrom in May 1946 and we wish to celebrate this milestone and honour Rays legacy during 2026 with an indoor and outdoor event at which area clubs will be invited free of charge to fly any models from Ray Malmstroms extensive catalogue – see it [here](#).

Ray Malmstrom with a typically exotic design

The 4 hour indoor event will be held in April 2026 at the amazing Cambridge University Sports Hall which is double the size of our usual hall and contains 8 badminton courts with a very high ceiling. Visitors from other clubs will be able to fly any Ray Malmstrom FF model (or RC conversions) at no charge.

Cambridge University's excellent but expensive sports hall

The outdoor event will be held at Impington Village College in July 2026 and visitors from other clubs will be able to come along free of charge and fly any Ray Malmstrom FF model and any Control Line model (even if not Rays designs).

Last years outdoor event saw young and old enjoying the basics of FF modelling

The costs for hosting these events will be £400 to hire the University Sports Hall and £250 to hire the field and provide a BBQ for the outdoor event.

IVCMAC seeks funding of £400 to hire the University Sports Hall and will fund the outdoor event and BBQ from club funds.

We will ensure that there is sufficient advertising to attract flyers from clubs in the area.
